# WHICH OF THE FOLLOWING WOULD YOU LIKE TO IMPROVE...

# LADHA SATISFACTION

# COMMENTS

- Would love to see more social events!
- Keep it up! Try to get us involved more to make SUS better
- I'm really happy with the experience I have from SUS so far :) I wish faculty staff like advisors were more approachable but I understand they're super busy. Sometimes the bathroom at Ladha is pretty gross but it's all good people just need to learn how to flush.
- We need to find a way to increase faculty pride and spirit among the entire faculty rather than just the same groups of people who are always involved
- Building manager needs more timely responses with emails and bookings
- I understand science is a huge faculty so it must be difficult to help everyone feel like they belong. Thank-you for trying!
- Thanks SUS for being awesome!!!
- Love the idea of different faculties interacting. Would prefer not to have to pay or have official teams for game events
- SUS members are very friendly and active
- SUS is confusing. Communication is spammy and overwhelming
- Ladha is always booked and I can't use it as a study space even though our tuition goes to pay for it
- I've been up to date this year because of the extensive effort of my SUS rep (Biopsych). Very grateful 😊
- Would like to know more about involvement opportunities
- Can we limit the amount of bookings for Ladha during common midterm season?
- Less events, more Ladha renovations
- Give out more FREE science stuff
- Hire different students for SUS involvements rather than hiring the same group of people each year
