Introductions

Presentations

AMS VP Administration Candidate – Alex Remtulla
Alex wants to work towards using new sub as a hub for student life. Alex hopes to work to bring clubs together and bring people to the building so it’s exciting for years to come and not just for this next term. Alex wants to be able to promote what clubs do, work with athletics and creating culture for varsity athletes. Alex’s vision: there are a lot of people on campus but that can put everyone farther apart. We should bring people together with this new building.

Question Period
Aaron
What are you most excited about in the new sub?
Alex
The Common Place, lots of room to study and relax

AMS Presidential Candidate – Aaron Bailey
Aaron is the current Science Student senator and was President of SUS in the previous year, he wants to take skills his past positions and bring them to being AMS President. Biggest lesson learned in SUS is that people work in a multitude of different ways. Aaron is a specific type of leader, direct, forward, takes control and ensures to work towards goals. In order to let AMS function, the President needs to be able to take from different leadership styles and bring them together. Aaron’s platform is to create fun, memorable, and positive experiences.

Board of Governors Candidate – Julie Van De Valk
Julie wants to be a connected student leader; she has a wide range of student connections on campus and wants to bring the concerns with strong advocacy voice. She has learned how to connect students, faculty and well researched well comprehensive plan that BoG is now considering. She wants to look at residential tenancy agreement and push that with the BoG. In addition, she would like the University to present, (in the event of tuition fee increase consultation period) why the increase is necessary and where the money would go towards. Julie advocates for affordable education and staying connected.

Aaron
What does Board of Governors do?

Julie
Board of Governors is the administration side of UBC, claims to act in the best interest of the university. Business side of the university and all of the housing agreements goes through BoG so it’s important body for students. I want to remind the University that acting in the best interest of the University is the same thing as acting in the best interest of students

UBC Senate Candidate – Eric Zhao
Eric is currently second year in MD/PHD program and graduated with a BSc in Physiology, minor in physics. Eric holds Science very close to his heart. What Eric sees with Faculty of Science is being a leader on campus. What Eric’s approach to senate would do for you is to identify student needs and be able to find ways to address those needs. Example: before elected to senate, Eric identified issues that we had with fourth year courses. By the time you get to 3rd and 4th it gets very specialized, 11 separate instructors teach one course and you have to evaluate all of your professors. No student is going to give adequate feedback given the time that has passed since one instructor has started. Eric brought issue up with Ann Kesler, went to a meeting regarding student evaluations, made the case of wanting to have something piloted in this course. As compromise, they settled on conducting midway evaluations for any instructor who has completed their teaching duties. We always say senate moves really slowly, but by having connections and making right strategic move senate can get things done. Eric’s platform:
1) Experiential Learning: Eric sits on the Teaching and Learning Committee and wants to make sure student perspective is brought into that discussion. 2) Student Mental Health and Well Being: Eric chairs mental health group on campus, wants to perhaps bring to the table a fall term reading break. 3) Student Rights: UBC does not have one. AMS has a guide but not an official policy. Senate would be the right place for the academic part and partner with board members and ombuds office.

Question
Kaitlyn
Besides mid-term teaching evaluation, what sort of projects have you been working on this year?

Eric
Experiential learning: directed studies for experiential learning, teaching and learning is pushing committee towards that direction, that is the biggest goal this year and having courses in medicine that are based off this gives me a good background.

Aaron
Who is the biggest non-student ally on campus?

Eric
VP Students office, TLC wanted to evaluate Credit/D/Fail and survey went through VP students office to evaluate that policy. CTLT, Simon Bates worked very hard on the AMS exam data base.

Code Amendments – Carmen Leung

Code and Policy Committee Motions

Moved by Jesse, Seconded by Josh,
BE IT RESOLVED THAT council approve the addition of position description for General Officers in SUS Code & Policy.
Motivated by: Carmen L.
Debate:
Shaaban
In presentation you mentioned you are adding those, there was not reasoning clarified.
Carmen L.
Some are additions, some are wordings, the addition was the last point: “under the supervision of VP internal”, wasn’t in the past code. Useful in new coming year, be more stratified in what general officers can do in their elected term

...MOTION PASSES

Moved by Vanessa, Seconded by Jesse,
BE IT RESOLVED THAT council adopt the report of Codes and Policy Committee titled “Changes to Article 4” and thus amend the bylaw as recommended
Motivated by: Carmen L.
Some of the points that were in the last code were moved around, want to make detailed reports of activity and want to include what should be in the transition report
Debate:
Shaaban
Why was liaison stricken out? It’s not saying they belong to, it’s just something that we assign
Carmen
GO’s are not associated with their departmental clubs,
Josh
Point of clarification: they have not been assigned non departmental clubs, a lot of the clubs are not existent or not active and have not been assigned.
Shaaban
How is the SUS non-departmental clubs represented if GO’s are not representing them?
Kaitlyn
What constitutes as a non-departmental club?
Carmen W.
URO, HSF, CLF
Nick
Have to send student representative from their club to sit in their council meetings, no mandate that says they are required but in the past this has not really happened. GO’s have not been assigned to represent these clubs.
Diane
Do the GO’s current have non-departmental clubs assigned to them?
Carmen L.
No.
Kaitlyn
If these clubs already had the opportunity to and have not, perhaps it should not be GO’s
Shaaban
GO’s would have part of their job as being the vote empowered member that represents their clubs, it does not seem fair
Madeline
Departmental reps are not club liaisons, it’s to represent all the students in their majors
Shaaban
Agree but in code one of the jobs with of the departmental rep is to liaise with their clubs
Kaitlyn
Is there a position of departmental rep and club rep?
Shaaban
It’s very old
Carmen
Club reps no longer exist, SUS used to have both but it’s very messy. Removed club reps entirely because there was overlap in the voting, you have someone
who is a club rep and the department rep, club reps who were voting members in the past. With the department vs. non department, the department reps represents the departments directly, non-departmental clubs may not have a voting seats because the individuals are already in the departments, their opinions should be counted for already

Nick

Merit in assigning GO’s, so club representatives can reach out to GO. On behalf of (club) we support (this motion). What Shaaban’s saying is supported. Taking it out because we haven’t done it is not a legitimate reason.

Abstentions: Diane, Vivian, Vanessa

...MOTION FAILS
