UBC Neuroscience Club – Send back

- Membership list missing some key information (last names, some members do not have updated year levels, some members do not have the right information filled in)
- Sent back because we need the membership list to determine eligibility and since we haven't reached the deadline yet

Ross Gardner (Full \$300.00)

- Well written outline of how his research is related to his continuing long-term interests in cardiology
- Allows him to network and present at the conference and learn from other researchers in the process
- Has made reasonable attempts to have the other costs covered (by the hospital lab he works at)
- Expenses are fairly reasonable although hotel fees may be a bit pricey

Jamie Magrill (Full \$300.00)

- Well-written and very descriptive explanation of the project
- Persuasive in providing his background in Prostate research as an honours student and his future career in oncology as a clinician-researcher (MD PhD program)
- At the conference, he can gain in experience in presenting and improving his experiment design and skills as well as networking with other researchers in the field
- No other sources of revenue, but tries to keep food and accommodation costs low

Zijin (Jasmine) Cheng (\$0.00)

- As she is a medical student, she does not qualify for the Grant.

Science One Survivors

Membership 5% (5/5)

- All (except one) students are in Science
- Had what we asked for

Events 20% (15/20 -> NO COLLABORATIONS)

- Change to 15% events (10% Variety, 5% Appeal of Event/Other) + 5% collaborations
- Needs to double check the numbers attending the events
- Not much collaboration with any club (only CSP; event may not happen as it is in the future)
- Great variety of academic, social, career development events

Rationale 40% (INCOMPLETE)

- Donations (over a few hundreds dollars = do not give money)
- Grammar/effort/mechanics (5%)
- Following Directions (5%)
