Based on feedback from past executives, Science Advising strongly encourages elected executives to build their course schedule to include a maximum of 4 courses per term, in order to facilitate the necessary time to devote to their added responsibilities through SUS while maintaining personal balance and wellbeing.

Science Student Advising requires all the candidates to have an average of at least 60 percent. Students with averages between 60 and 65 percent are encouraged to make an appointment with an academic advisor in Science Advising prior to registration, as they are offering their full support to build an individualized graduation plan for SUS executive members.

Community Building Education is required for all those elected. Candidates who have not obtained the training should be ready to attend the Community Building Education taking place on Saturday, March 24th from 9 AM to 1 PM, if they get elected.
