15)_______________________________________________________________________________________________

Please fill out this form and hand in NO LATER than 4:00 PM on Monday, March 9th to the Abdul Ladha Science Student Centre. There is a MANDATORY All Candidates Meeting starting at 5:00 PM on Wednesday, March 11th at TBD. If you do not attend this meeting, you will be disqualified from running.
Campaigning period is from Thursday, March 12th at 12:00 AM to Friday, March 27th at 12:30 PM. All candidates may submit a blurb of no more than 200 words and a photograph with resolution no less than 300 dpi by Friday, March 13th at 11:59 PM. It is strongly recommended that candidates attend the All Candidates Forum that will be scheduled during the campaigning period. Voting takes place online from Monday March 23rd at 12:00 AM to Friday March 27th at 12:30 PM. All of the dates mentioned above can be found on the bottom of this page. Questions can be forwarded to the Elections Administrators at elections@sus.ubc.ca.

Based on feedback from past executives and aggregate analysis of past executives’ academic performance, Science Advising strongly encourages elected executives to build their course schedule to include a maximum of 4 courses per term. This recommendation facilitates the necessary time to devote to your added responsibilities through SUS while maintaining capacity for personal balance and wellbeing.

Further to the course planning note above, Science Advising very strongly recommends that all candidates have an average of at least 60 percent prior to running in the SUS election. Students with averages between 60 and 65 percent are encouraged to make an appointment with an academic advisor in Science Advising prior to course registration; this one-to-one appointment can support your course planning process and ensure that you have the necessary tools to be successful as a student and in your elected role.

For all nominated candidates, Science Advising will review your student record and may reach out to you to further discuss your plans for balancing your courses and your potential Science Undergraduate Society commitment. Regardless of your average or other circumstances, you are welcome to reach out to Science Advising for support at any point.
